

## **Davis-Standard Consolidates Canadian Strengths: Deacro, Brampton Engineering, and Gamma Machinery to Amalgamate as Davis-Standard Canada Inc.**

**PAWCATUCK, CT / BRAMPTON, ON – January 13, 2025** – Davis-Standard, a global leader in extrusion and converting technology, today announced a significant strategic integration of its Canadian specialty brands. Effective **January 1, 2026**, **Deacro Industries Ltd., Brampton Engineering Inc., and Gamma Machinery** have been amalgamated to operate as a single company: **Davis-Standard Canada Inc.**

“The move consolidates the operational footprint and technical capabilities of these three distinct, market-leading specialty brands. This integration is designed to leverage combined resources to enhance customer support, drive innovation, and improve operational efficiencies,” said Michael Brown, Vice President of Operations, Davis-Standard.

### **Key Highlights of the Amalgamation**

- **Continued Brand Focus:** The core technologies, engineering expertise, and product lines associated with the **Deacro** (slitting/rewinding), **Brampton Engineering** (blown film), and **Gamma Machinery** (bag machines/winders) brands will remain central to the company’s offering.
- **Operational Consistency:** The dedicated team members, including engineering, sales, and service contacts, will remain unchanged, ensuring continuity in customer relationships and project execution.
- **Global Service Integration:** Customers will continue to utilize the 24/7 First Responder phone number, **1-844-MYDAVIS** (844-693-2847), which provides comprehensive global support across all brands and product lines.

Stay tuned for more developments from Davis-Standard and our specialty brands – There are a lot of exciting things to come for 2026.

### **About Davis-Standard**

Founded in 1848 and headquartered in Chicago, IL, Davis-Standard is a global leader in the design, development, distribution and aftermarket servicing of extrusion and converting technology. Our systems encompass over 11 product lines to support manufacturing applications and customers in a wide variety of industries, including infrastructure, wire & cable, building & construction, consumer products, medical and packaging.

With more than 2,400 employees worldwide and a network of independent sales agents and suppliers in nearly every country, Davis-Standard is committed to engineering systems that are cost-effective, environmentally friendly, and offer a high return on investment. The company has manufacturing and technical facilities in the United States, Canada, China, Germany, Finland, Switzerland, Austria, Italy, Czech Republic and the United Kingdom.
