

DAVIS-STANDARD®

Where your ideas take shape.

Aftermarket

Spare Parts

Overview

Lost production means lost profit. That's why our global spare parts service is organized to ensure the right part is delivered as quickly as possible. Our spare parts team is available 24 hours a day, seven days a week to help identify and secure parts for your equipment. We support all Davis-Standard equipment brands, regardless of age. We keep equipment records in accessible online files and maintain a significant parts inventory to address requests quickly and accurately. The ongoing expansion of our global service capabilities supports customer productivity by keeping equipment in the best working condition possible.

If you are making a new inquiry it is helpful to have the following information:

- Shop Order Number or BM Number or
- Part Number and/or name

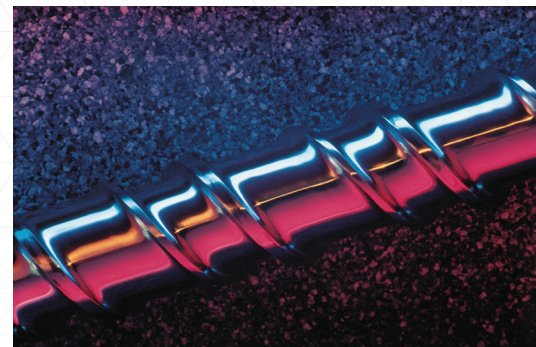

Payment Options

- In addition to company purchase orders
- MasterCard
- Visa
- American Express

You wouldn't drive a car without a spare would you?
Why would you risk profitability by not having a spare?

Spare Parts

Benefits

Maximizing the performance and value of your Davis-Standard equipment investment is our aftermarket goal. This includes supporting non Davis-Standard brands. Our 24/7 service hotline, extensive spare parts inventory, and on-site technical services help customers avoid costly downtime and boost productivity. Equipment and feedscrew upgrades, gearbox retrofits, L/D conversions, advanced drives and controls are available to support new system performance without a new system price. We also offer training courses and seminars to support operator performance and system efficiency.
